## PROJECT EXPERIENCE

### BigBite App

*React Native, JavaScript, Expo, Render, PostgreSQL, Clerk Auth*

- App to help ease the pressures of choosing what to cook for a meal.
- Includes features such as user authentication, search/filter, saving favorites, video tutorials for each meal.

### Developed Online Game Caption Creators

*Next.js, MySQL, Node.js*

- Feature development for a Jackbox-style online game that matches video clips with user-generated captions.
- Added our own twist where players search for videos and comment on the videos, then players vote for which video and comment pairings are the best.

### TU Marketplace

*React, JavaScript, Tailwindcss, Node.js, Firebase, Vercel*

- An online e-commerce platform exclusively for Towson University students to sell/buy goods.
- Included user authentication, search/filter, messaging, payment processing, and product listings.

---
